

BITREX

QUALITATIVE FIT TEST KIT

COMPLETE FIT TESTING SYSTEM

Simplify your respiratory protection program by incorporating Scott's Bitrex Qualitative Fit Test Kit into your fit testing procedures.

The Scott Bitrex Fit Test Kit is a qualitative respirator fit testing system which uses the harmless bitter taste of Bitrex® to determine if a respirator is properly fitted to a user. OSHA requires fit testing to ensure proper fit for workers who use respirators. The Scott Bitrex Qualitative Fit Test Kit meets the performance criteria for qualitative fit testing of tight-fitting facepiece respirators under current OSHA standards.

The Bitrex Fit Test Kit may be used with both tight fitting half-and full facepiece air-purifying respirators if they will only be used in atmospheres less than ten times the PEL.

PRODUCT HIGHLIGHTS

- Simple and easy to perform
- Ensures proper respirator fit
- Uses harmless Bitrex® solution
- Ideal for tight fitting half and full facepieces
- Meets all performance criteria for current OSHA standards

BITREX

QUALITATIVE FIT TEST KIT

WHEN TO USE QUALITATIVE FIT TESTING

Qualitative Fit Testing (QLFT) may be used to fit test negative pressure air-purifying respirators, if they will only be used in atmospheres less than ten times the Permissible Exposure Level (PEL).

Kit contains test hood, 2 nebulizers, sensitivity and fit test solutions and instructions.

ORDERING INFORMATION

Part Number	Description
BITREX QUALITATIVE FIT TEST KIT	
2017070	Bitrex Qualitative Fit Test Kit
BITREX QUALITATIVE FIT TEST KIT- SPARE PARTS	
2017093	Fit Test Solution Applicator Kit (6 ampoules/box)
2017092	Sensitivity Solution Applicator Kit (6 ampoules/box)
2017094	Nebulizer
2017095	Test Hood
FIT TEST PARTS FOR USE WITH 742 SERIES TWIN CARTRIDGES	
805622-01	742 Series Twin Cartridge ¼ Turn Adapter
7422-FP1	P100 Filter, 742 Series
7422-BA1	Organic Vapor Cartridges, 742 Series
FIT TEST PARTS AND ACCESSORIES FOR USE WITH 40MM SERIES CANISTERS	
805059-01	40mm Canister Adapter
052683	40mm P100/HEPA Cartridge
