

# SCOTT CONNECT MONITOR

SOFTWARE SYSTEM

Scott Connect Monitor puts critical real-time responder SCBA information at incident command's fingertips. Designed for use on modern, touch-enabled PCs, this easy-to-understand air management solution allows the company officer or team leader to see air, PASS and EVAC data available while establishing and maintaining command. Monitor's automated design complements existing accountability and incident command SOGs without the burden of additional work.

## FEATURES AND BENEFITS

Works with all Scott Safety Air-Pak SCBA equipped with SEMS II

Scott Connect Monitor is compatible with Air-Pak X3, Air-Pak 75, and Air-Pak NxG7.

Automatic acceptance of devices at base station

No additional step means devices are monitored from the moment they connect to the base station.

Alert View

Immediately hone in on alarms, ensuring quick recognition of the most critical information.

Touch Friendly Interface

Application interface was designed from the ground up for use with touch enabled displays. This greatly enhances the usability of the application in fireground environments.

## FREQUENTLY ASKED QUESTIONS

### QUESTION

What Air-Pak SCBA are supported with Scott Connect Monitor?

### ANSWER

All Scott Safety Air-Pak SCBA with a SEMS II radio are capable of communicating with Scott Connect Monitor.

### QUESTION

What SEMS II gateway does Scott Connect Monitor use?

### ANSWER

Scott Connect Monitor uses the SEMS II USB gateway (201088-02).

### QUESTION

Does Scott Connect Monitor support the use of the SEMS II repeater?

### ANSWER

Yes. The SEMS II repeater is supported for use with Scott Connect Monitor.

### QUESTION

Is Scott Connect Monitor available for use on an iPad or Android tablet?

### ANSWER

No. Scott Connect Monitor requires a Windows compatible PC.

### QUESTION

Is data logged in Scott Connect Monitor?

### ANSWER

Yes, Scott Connect Monitor logs all activity on the base station for record keeping and post-incident reporting. Reports can be printed or saved as a PDF file.

### QUESTION

What operating systems can run Scott Connect Monitor?

### ANSWER

Scott Connect Monitor is supported on Microsoft Windows 7, 8, and 10 (32 and 64-bit).

### QUESTION

Does Scott Connect Monitor qualify as an NFPA 1982 (2013 ed.) RF communicating PASS base station?

### ANSWER

Yes, when used in conjunction with an approved Scott Safety Air-Pak product with SEMS II RF communicating PASS capability.

### QUESTION

Is Scott Connect Monitor an accountability application?

### ANSWER

No, Scott Connect Monitor is designed to complement existing accountability and incident command SOGs on the fireground. It does not track assignments or non-SCBA wearers.
